

About HiTide Manufacturing Group, LLC

Our name says we're a manufacturing company. Our product line shows we're a design, engineering and manufacturing firm. And our success proves that, at the end of the day, we're really in the customer service business.

HiTide Manufacturing Group meets the needs of the marine market by focusing on continuous improvement processes based on our close relationships with customers and core partners. By fully understanding your needs and desires, we constantly provide the products and services that meet your requirements.

We provide world-class marine manufacturing capabilities through our design, engineering, tool building, molding, assembly, packaging, shipping and fulfillment services for all three quality HiTide Manufacturing Group marine components lines:

HMG
